

FULL STACK DEVELOPER

Within 8 months, two significant topics must be validated. First of all, to be able to intervene on all Evina's solutions in terms of software development tasks. Then, contribute to raise Evina software development practices in order to bring Evina on the top 1% of cybersecurity companies.

OUTCOMES

- On our anti fraud solutions:
 - More than 99,9% of fraud blocked
 - Less than 0,1% of false positive
 - Contribute to maintain transactions latency under 100ms
- Apply Git Flow best practices
- Respect and apply Agile Scrum methodology
- Each development must be reviewed
- Each development must included automated tests (unitary tests + Business tests)

SPECIFIC SKILLS FOR THE ROLE

Must have a strong expertise or proven acknowledgement in:

- Back End languages : PHP 7, Javascript (Node.js)
- Front End languages : Javascript (React, TypeScript, JQuery), HTML, CSS, navigateurs
- Mobile application : Android, iOS, etc..
- SOLID principles
- Versioning tools : Git / Github / Bitbucket
- Databases : MySQL, PostgreSQL, Oracle, MongoDB, DynamoDB
- API type : REST / SOAP
- Cache solutions : Redis / Memcached
- TDD : PHPSpec, PHPUnit
- Docker
- Jenkins
- Xdebug or similar (Debugging tools)

- API Gateway Pattern
- Perfect expertise in OWASP requirements
- Development methodology : Agile Scrum

Nice to have relevant expertise or acknowledgement:

- Framework PHP MVC : Zend 3/Expressive or Symfony 3/4 or Laravel
- Compiled languages : Go or Node.js or Python or C#
- Malware industry
- Queue Message : RabbitMQ or Kafka or AWS SQS oR Redis
- Behavior Driven Development : Behat or similar
- Domain Driven Design (Tactical and Strategic Design Patterns)
- Search Engine (ElasticSearch)
- Micro-services applicative architecture

REQUIRED VALUES

- Excellence: I am constantly striving for excellence for myself and my company.
- Caring: I sincerely care about the well-being of my partners (colleagues, suppliers and customers).
- Customer orientation : The quality of service I provide to my customers comes before the elegance of the code or my personal comfort...
- Reliability: We say what we do, we do what we say.
- Conscientiousness: We go to the bottom of the subjects with vigilance.
- Bold: Acting with strength, determination and responsiveness when a necessary action is identified.
- Humbleness : I know what I am capable of or not in order to ask help or training to move fast for the good of the company.
- Honestly: I know when I make a error and I can assume it
