

FULL STACK DEVELOPER

WHO ARE WE?

Evina is a rare gem among French start-ups: a cutting-edge cybersecurity company, dedicated to mobile payments, with 15 years of R&D fueling its award-winning technology. Evina's goal is to become one of the world's leading cybersecurity companies, and is paving the way to achieving its ambitions.

Today, Evina protects mobile operators, digital merchants and payment aggregators in more than 70 countries and secures more than 16 million transactions per day.

Our mission is simple: to make cyberspace more prosperous for everyone by using cutting edge technology to stop criminals.

Our values are more than just words hung on an office wall: excellence and caring are at the heart of what we do. To provide the most advanced technology to the market, we strive to create a thriving workspace where we are mindful of our team members and their well-being so that they can perform at their best.

Evina's headquarters are located in Paris, with beautiful offices in the heart of the city. You also have the option to work remotely as we take pride in our international team working from different parts of the world.

WHO ARE WE LOOKING FOR?

Evina is looking for a Full Stack Developer to develop our Eyewitness product. We require at least 3 years of higher education.

EYEWITNESS

Evina's Eyewitness is the first solution in the world able to record data-enriched videos of what users actually see and do on the payment page. It saves time and money in complaints management and helps all players to maintain trustful and transparent relationships.

JOB DESCRIPTION

- Front-end : Develop the Eyewitness website (screenshot, heatmap, etc.)
- Back-end : Maintenance and improvements to ensure a robust service
- Set up unit and functional tests
 - The objective is to have full coverage for each new feature
- Develop our script so that it is increasingly faster and less cumbersome
 - Performance will be a daily obsession
- Develop the Eyewitness recording script

If you join us, these would be your first important assignments to help achieve Evina's goals:

- Develop the back-end of the Eyewitness website
 - Set up a screenshot system
 - Creation and integration of a heatmap on the eyewitness website
 - Redesign the website
 - Process optimization
 - Continuous improvement
- Be autonomous in the creation and update of the Eyewitness website
 - Curious
 - Pragmatic
 - Autonomous
 - Proactive

Evina is always looking for new ideas and the best ways to implement them.

Required skills

- Front:
 - Javascript
 - React
 - HTML/CSS 3
- Back-end:
 - PHP 7/8
 - mysql
 - NodeJS
- Other:
 - Git/Git flow
 - Jenkins/Bitbucket

Appreciated skills:

- You have already worked with Redux and/or Typescript
- You are familiar with the AWS environment
- You have already tested root-me.org
- You enjoy using Docker
